Merit Lilin Technical Support Document
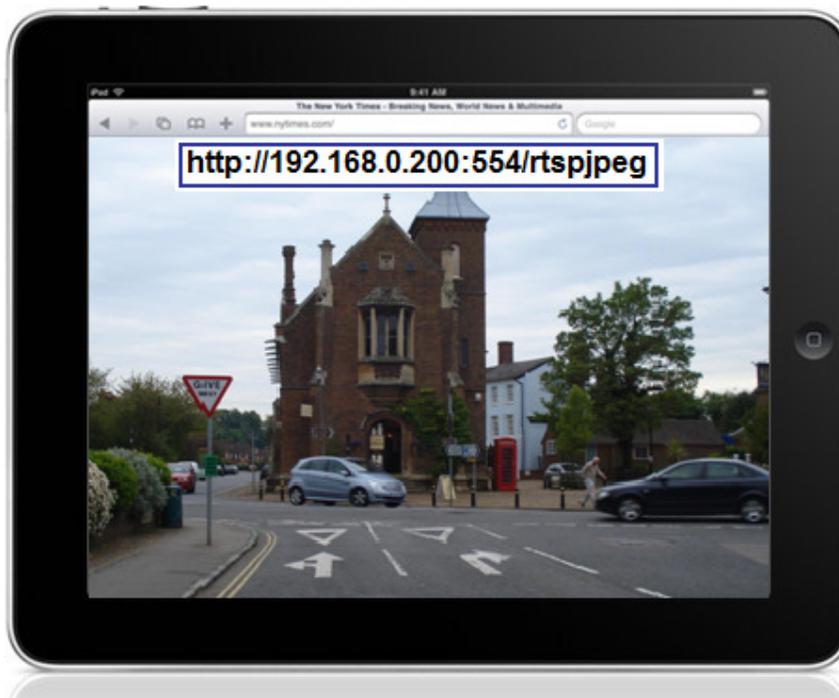

Subject: Live video of LILIN HD IP camera on iPad using Safari

Summary:

Access Only Live Video:

To access live video via iPad, please type in http://192.168.0.200:554/rtspjpeg at the URL address of Safari for accessing live video.   Since RTSP streaming for JPEG is used, the default port for RTSP is 554.   Please type in the URL port number accordingly.

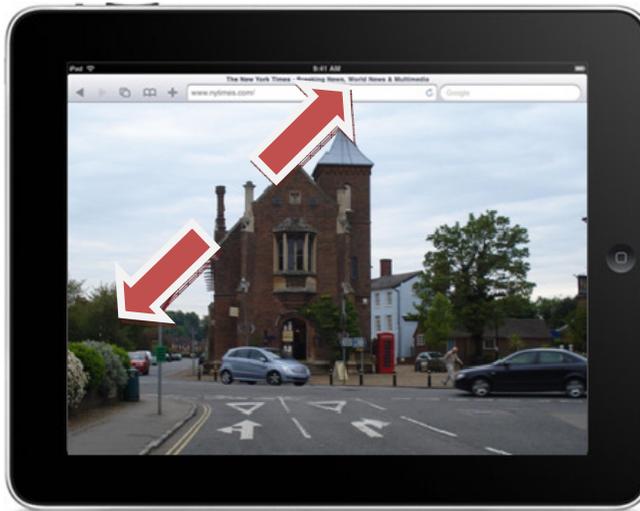

Setup RTSP port:

To setup RTSP port, please goto web interface of the HD IP camera and click on Setup->HTTP/RTSP Service and change RTSP port numbaer according.   Make sure that you type correct RTSP port number at the URL adress, when you access the HD IP camera via Safari.

Digital zoom:
Digital zoom feature is allowed via iPad.　　To access live video, please use two fingers for expending the area you want to perform digital zoom.

Access HD IP camera with full page mode:
To access full page mode, please type in http://192.168.0.200/safari.html at the URL address of Safari.　　You are able to setup the settings of the HD IP camera.

Note: To access live video via Internet, make sure that the RTSP port number is opened accordingly.
