

Merit LILIN Technical Support Document

Document Number : Q00101

Date : 6/8/2013

Dept : Technical Support, Taipei

Subject: How to request LILIN for ONVIF interoperable test for third-party software.

Description: This document describes how to request for LILIN for interoperable test for third-party software.

Requirements:

Please provide us the following items:

1. Third-party software demo license
2. Third-party software download hyperlink
3. LILIN camera number for the interoperable test
4. Send an email to fae@meritlilin.com.tw for LILIN product model number and interoperable features of the third-party software.

Once we have above information in email, we will provide the interoperable test result and application note back to you.
