

## LILIN Hardware Support List For UL-2802 Certification

**Document Number:** H00004

**Date:** 04/010/2015

**Dept:** Technical Support, Taipei

**Subject:** LILIN UL-2802 certification

**Description:** The following cameras pass UL-2808 certificaion.

UL launched the first digital camera performance UL-2802 standard in 2013, defining a method to assess image quality of a video camera's ratings through a series of performance-based tests. Network cameras are rated on the following parameters – image resolution, TV distortion, relative illumination, dynamic range, maximum frame rate, grey level, sensitivity, bad pixel, and veiling glare.

### **Auto Focus Camera**

ZR6122

### **Pro Series**

IPR6122

IPD6122

IPR7722

IPR7338

### **L Series**

LR6122

LD6122

LR7722

### **Speed Dome IP Camera**

IPS428
