

Merit LILIN Application Note How to connect to a VideoTec camera

Document Number : A00078

Date : 05/11/2015

Dept : Technical Support, Taipei

Subject: How to connect to a VideoTec camera using ONVIF with support for advanced features via ONVIF.

Description: LILIN Navigator Enterprise can now support VideoTec cameras including advanced features such as “Wiper”, “Washing”, “IR Lamp”, and “OSM” feature.

Navigator Enterprise version: Version 1.0.1.4 and above

Please connect to the VideoTec camera via the ONVIF driver. After configuring the VideoTec camera correctly, you can control its advanced features via ONVIF.

Step #1: Select “PTZ Setting” from main control panel.

Step #2: Click the advanced feature in Auxiliary to control VideoTec camera.

Step #3: Click “Apply” button to perform the command.
