

Merit LILIN Application Note

How to connect MJPG streams for third-party cameras using LILIN Navigator

Document Number : A00077

Date : 04/23/2015

Dept : Technical Support, Taipei

Subject: How to connect MJPG streams for third-party cameras using LILIN Navigator.

Description: After you have purchased LILIN Navigator Enterprise, you can manually type the MJPG URL of a third-party camera to receive its MJPG video stream.

Step #1: Select “Manual” from driver list.

Step #2: Type IP address and the MJPG URL at IP/DNS edit box.

Step #3: Enter username and password of the camera.

Example #1:

IP/DNS for Axis MJPG URL is “192.168.3.78/axis-cgi/mjpg/video.cgi”.

Example #2:

IP/DNS for LILIN MJPG URL is “192.168.3.78/axis-cgi/mjpg/video.cgi”.

Note: You can find the MJPG URLs of third-party cameras via www.ispyconnect.com.
