Merit LILIN Application Note
# Enable ActiveX Control for Navigator Enterprise

LILIN Navigator Remote ActiveX Control

Subject: The purpose of this document describes how to enable ActiveX control for LILIN Navigator Enterprise.

Requirements
Please first install LILIN Navigator Enterprise (NAV) 1.0.1.6 or higher.

After installing LILIN Navigator Enterprise, visit System Setting->Network.
You will find HTTP Link. There are two ports, 8021 and 8080, for HTTP and streaming server.

To access Navigator using ActiveX, please access it using port 8021. For example, if the Navigator Enterprise IP address is 172.20.10.2, you can access it using http://172.20.10.2:8021 for ActiveX streaming and video displaying.
