

Hard Drive Installation Guide

Models: EVR3104E, EVR3108E, EVR3116E

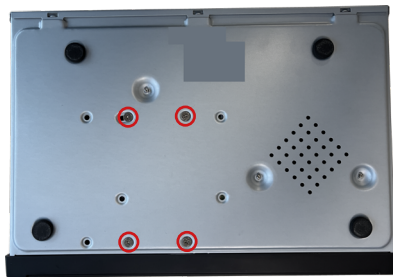

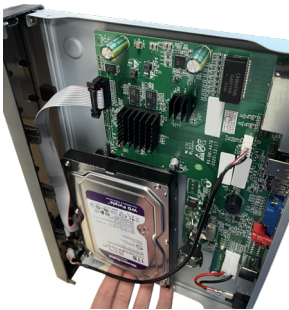

Each unit can fit 1 x 3.5" SATA HDD, up to 14TB.

1. Open NVR and connect HDD via the SATA port.

2. Support HDD with one hand, flip NVR to side or back and install screws to secure HDD.

Note: different HDD will have different screw positions.

3. Reattach NVR lid and format HDD in system settings.
