# Merit LILIN Application Note

How to register the P2P license on AHD DVR

**Document Number**：A00144
**Date**：2018/03/13
**Dept**: Technical Support, Taipei

**Subject:** This document describes how to register the P2P license on a LILIN AHD DVR and how to connect to it using the NetViewer app and Windows software via P2P protocol.

**Device Supported:** LILIN AHD DVRs.

**How to register the P2P license on an AHD DVR**

Step 1: You will receive a barcode after buying a P2P license from LILIN dealers.
Step 2: Scan the barcode to get a P2P license.

Step 3: Mark sure the AHD DVR is able to connect to the internet.
Step 4: Turn on the AHD DVR, go to Network Setup and apply the P2P license.

Step 5: If registration is successful, the barcode, the UID gets shown on the system information.

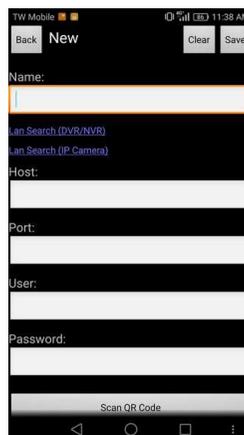

**How to connect to the AHD DVR via P2P**

There are 2 ways of connecting to the AHD DVR via P2P:

1. Netviewer App is for mobile devices.
2. Netviewer.exe is for Windows PC.

**For mobile devices**

Step 1: Download the NetViewer App from the app store and install it on to the mobile device.
Step 2: Execute NetViewer, click New and Scan QR code button.
Step 3: After the QR code of AHD DVR has been scanned, all the DVR information will be imported automatically into each field.
Step 4: Click the Save button.
Step 5: Select one AHD DVR from DVR list for live viewing.

**NetViewer.exe for PC**

Step 1: Download NetViewer software from
http://www.meritlilin.com/assets/uploads/support/file/Software-NetViewer%20Software-EN.zip

Step 2: Unzip Software-NetViewer Software-EN.zip, and execute NetViewer.exe

Step 3: Key in the UID code of AHD DVR into Host and add port, user name, and password information

Step 4: Click the Connect button to establish a connection to the DVR
