How to Upload an LPR List to an LPR Camera

Document Number：A00161
Date：2018/09/11
**Dept**: Technical Support, Taipei

Subject: This document describes how to upload an LPR (Number Plate) List to an LPR IP camera.

Device Supported: LPR Cameras

How to upload LPR List:

Step #1: Key in camera IP address in browser and type username and password.
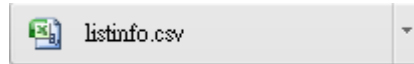

Step #2: Press **Setup**

Step #3: Press **Advance Mode** -> **Smart Event** -> **LPR List Upload** -> **Export**

NOTE: Your computer must support excel file to successfully export LPR List.

![LILIN logo]

Step #4: Open the exported **listinfo.csv** file and **add/modify the LPR list**. Afterwards, save as CSV UTF8 file.

NOTE: If you cannot directly save as CSV UTF8, you may use Notepad++ to convert as follows: move the cursor to **listinfo.csv** file, mouse right click, press **Edit with Notepad++** -> **Encoding** -> **Convert to UTF-8** -> **Save**

Step #5: Go to Import LPR List and press **Browse** -> Select **listinfo.csv** file -> **Upload**
